Software Developer

PROFILE

Motivated Master's student with a GPA of 3.8 at Fairleigh Dickinson University, pursuing a degree in Applied Computer Science with a focus on full-stack web and mobile development. Creative and detail-oriented software developer with over 3 years of professional experience building responsive applications across diverse industries, including ecommerce and finance. Eager to contribute technical expertise and problem-solving skills to a forward-thinking organization through a co-op placement.

HIGHLIGHTS OF QUALIFICATIONS

- 3+ years of professional experience in software development across mobile and web platforms
- Proficient in HTML, CSS, JavaScript, Python, C++, C#, and SQL
- Skilled with React, React Native, .NET, NodeJS, MySQL, MongoDB
- Built full-stack web applications with real-time booking, form validation, and session management
- Experienced with development tools like Jira and Git for collaborative workflows

EDUCATION

Master of Science in Applied Computer Science – Advanced Computer Programming Jan 2025 – May 2026
Fairleigh Dickinson University, Vancouver, BC

Bachelor of Engineering in Communication and Information Engineering July 2018 - Aug 2023
Tribhuvan University, Kathmandu, Nepal

PROJECTS

Suyatra – Hotel Booking System | www.suyatra.com.np | Nov 2023 - July 2024

- Engineered a dynamic hotel booking platform enabling users to search, filter, and book accommodations across multiple destinations in Nepal
- Integrated real-time booking capabilities with calendar-based date selection, availability tracking, and secure confirmation workflows

Kumari Capital Limited – Mutual Fund Investment | www.kumaricapital.com | Aug 2024 - Dec 2024

- Designed and developed a comprehensive digital investment system for mutual fund services, supporting SIPs, lump-sum investments, and real-time trading functionalities
- Built secure backend API integrations and implemented robust user authentication and transaction management features

WORK EXPERIENCE

Web and Mobile App Developer | Ux-Qode Pvt. Ltd., Lalitpur, Nepal June 2024 – Dec 2024

- Built a hotel booking web app using React, Redux, TypeScript, and Mantine UI
- Designed responsive UI with UX/UI designers, improving usability by 30%
- Integrated secure authentication and session handling using JWTs and REST APIs

Software Developer | Innovate Nepal Group, Kathmandu, Nepal Dec 2023 – June 2024

- Developed engaging UI using Reanimated and Lottie for interactive mobile apps
- Added push notification functionality and offline data persistence in web and mobile apps

Front-End Developer | NEXT NEPAL Pvt. Ltd., Kathmandu, Nepal Jan 2022 – Nov 2023

- Created reusable, modular React Native components for large-scale app development
- Worked closely with design and QA teams to iterate on user feedback and bug fixes

RE: Web and Mobile Development Co-op Position

To the concerned authority,

As a Master of Science in Applied Computer Science student at Fairleigh Dickinson University with over three years of hands-on experience in building scalable web and mobile solutions, I am writing to express my interest in the Web and Mobile Development Co-op position. With a solid track record of delivering feature-rich applications and a deep passion for crafting user-centric digital products, I am confident I can make a meaningful impact on your development team.

Throughout my academic and professional journey, I've had the opportunity to architect and implement full-stack applications used by real customers. Some highlights include:

- **Engineered "Suyatra"** – a national hotel booking platform with real-time availability, secure reservation workflows, and an intuitive calendar UI, built using React, Node.js, and Firebase.
- **Led development of Kumari Capital's investment platform**, enabling SIP, lump-sum, and live trading, integrating secure backend APIs and robust authentication flows.
- **Built responsive and accessible interfaces** using React, TypeScript, and Mantine UI, enhancing user engagement and reducing bounce rates by up to 30%.
- **Integrated REST APIs, session handling, and offline support** in cross-platform mobile apps using React Native, enhancing usability in low-connectivity environments.
- **Applied Agile principles** and collaborated with UI/UX designers and backend teams, consistently delivering on time with high-quality, maintainable code.

My technical stack includes HTML, CSS, JavaScript, React, React Native, .net, Node.js, Firebase, MongoDB, and SQL. I'm proficient with Git, Jira, and modern CI/CD pipelines. Additionally, my strong problem-solving mindset, communication skills, and adaptability make me a reliable and creative team contributor. I'm confident that my passion for clean code and user-first design aligns with your company's goals for innovation and excellence.

I would welcome the opportunity to speak with you further and demonstrate how my background can support your development initiatives. I am available at your convenience via email at adeettuldr5@gmail.com or phone at +1 (672) 673-5247. Thank you for considering my application.

Sincerely,

A Tuladhar
